

GIRLS TRIP TO WINERY

Trip Planning: Process Improvements: To improve the planning process for the girls trip, we can reduce delays by using tools like Doodle or Google Calendar to quickly coordinate dates. Assigning one person to handle bookings can streamline decisions, and using apps like Airbnb or Expedia helps avoid waiting for confirmations. A shared packing checklist and itinerary in Google Docs or Notion keeps everyone organized. Setting deadlines and using reminders also prevents last-minute stress. These changes can increase efficiency and make the trip planning smoother and more enjoyable.
